BOOK SYNOPSIS

When her best friend dies under mysterious circumstances, Sophie sets off to stay with her cousins on the remote Isle of Skye. Its been years since she last saw them--brooding Cameron with his scarred hand; Piper, who seems too perfect to be real; and peculiar little Lilias with her fear of bones. Still, Sophie never expected the strange new rules the family now lives by: Make no mention of Camerons accident. Never leave the front gate unlocked. Above all, dont speak of the girl whos no longer there, the sister whose death might have closer ties to Sophies past--and more sinister consequences for her future--than she ever knew. A wondrously haunting and modern thriller, Frozen Charlotte drips with mystery and madness, secrets and survival, and the chilling sense that the impossible might be all too real.
